A bill is a binding piece of legislation that can appropriate funds, create or dissolve positions within the Executive Branch, amend the Bylaws of the USG, and create or change the policies of the USG, both internal and external. A bill must have a majority vote to pass unless it amends Bylaws of any sort, which requires a majority.

vote to pass and must be introduced and read in full before the Senate. After the reading, the author of the amendment is required to elaborate on the reasoning and necessity of the amendment before the Senate. Such debate is at the unlimited discretion of the Chair. After the discussion period, the amendment must
be tabled until the next meeting of the Senate at which time a majority vote is required for passage. Bylaws are subject to executive veto.

Subsection v. Resolution

A resolution is a non-binding piece of legislation that can express the sentiment of the body on an issue, discuss new circumstances that highlight old policy, or underscore other matters of symbolic import. A resolution must have a majority vote to pass and is not subject to an executive veto.

A senator may present issues regarding the student body within Senate, however, a resolution must begin within a respective committee and authored by senator(s) within said committee (i.e., matters involving Student Orgs shall have resolutions originating within Student Orgs Committee). The committee shall deliberate, research, and refine the resolution before the committee chair shall host a vote amongst its members on whether to introduce the resolution to the floor of the Senate.

Subsection vi: Resolution Exceptions

D. Other Items of Consideration

Subsection i. Report of a Committee

The report of a committee is a written document that may be informational, persuasive, and/or analytical, expressing the considered and typically researched conclusion of the committee on a specific topic. Reports of committees are read before the Senate. A report of a committee cannot be amended on the floor of the Senate, and so changes must be made by referring it back to its committee with a majority vote. A report cannot be referred to a committee that did not draft the original. A report is not considered a binding decision of the Senate, but its suggestions can be taken up by other means including legislation, petitions, and statements of support. It is not subject to executive veto.

Subsection ii. Report of Executive

The report of an executive is a written document and/or presentation by a Cabinet member, Task Force, the President, Vice President, or one of their designated representatives to the Senate. It is introduced to the Senate by the executive according to the policies of the President Pro Tempore.

Subsection v. Statements of Support

Every senator is granted the right to issue statements of support in response to major and urgent issues that directly affect members of our student body and their experience at the university. These statements are a means to vocalize support and advocacy for the affected students and not as a means to merely state the senator’s opinion on the addressed issues. These statements should include on-campus resources that students can refer to for further support. These statements get sent to the President, Vice President and President Pro Tempore for verification of the guidelines above, and if approved by the President, Vice President, and President Pro Tempore after verification of guidelines, these statements get published on the USG Social Media pages within 1 week of their submission to the President and Vice President and President Pro Tempore. When a statement is published, the concerned senator shall bring the statement to the senate for discussion at the soonest USG meeting following the statement’s submission, and if the senate’s discussion concludes that the statement violates any of the guidelines mentioned above, the President, Vice President and President Pro Tempore shall reserve the right to review the statement a second time and decide whether to keep it published or not within 1 week. The President, Vice President and President Pro Tempore’s final decision regarding the statement be explained and communicated to all of the senate through any communication channel they choose.

Rollover funds will include but are not limited to the returned remainders of RSO’s allocated budgets, Diversity Committee and Sustainability Committee residual funds, and the remaining balance in the Undergraduate Student Government operating budget. Rollover funds must be used for projects that are one-time purchases. The definition of a one-time purchase embodies that it cannot be subscription-based and cannot be something that will need to be spent in the future to keep projects afloat, operational, or maintained. In order to apply for rollover funds, projects must have a guarantee of funding for future years should the project require it.

Subsection ii. Threshold

For purchases up to $10,000, a group consisting of the President, Vice President, President Pro Tempore of the Senate, and all Senate Committee Chairs must vote for and approve the proposed spending in a majority vote. This group shall be formally referred to as the Overflowing Funding Committee (OFC). In
the instance that there is an even number of people voting, the President will not vote. For purchases of $10,000 or more, the Senate must vote for and approve the proposed spending in a majority vote.

Subsection iii. Procedure

Proposals for spending of the rollover fund can come from Senators, the Vice President, or the President. All spending, below or above the above spending threshold, must be reported to the Senate by the President at the following week’s Senate meeting.

Applications for spending above $10,000 must be brought to the Senate as a bill and then presented to the Senate by the eligible person who is applying for the funds, followed by a recommendation from the Finance Committee. Before bringing the bill to the Senate, the applicant must have a mandatory advising meeting with the Finance Committee Chair and contact the Student Affairs & Inclusive Excellence Business Operations Resources staff to ensure that the purchase is allowable.
